

OFFICIAL RESPONSES TO VENDOR QUESTIONS
RFA-2018-DCYF-05-TRUST

No.	Question	Answer
1.	Does the Department want one (1) original application or do you want additional copies as well?	One (1) Original application only.
2.	Is there a preferred level of education for staff we nominate for this training? Should staff have a Bachelor's degree, Master's degree? Be licensed?	A Licensed clinician would be preferred; however others will be given full consideration.
3.	Is there an expectation for the number of people to be trained in TBRI upon staff returning to NH?	The Department would like a majority of agency staff to be trained, however as each agency is different this is not a set number.
4.	How many hours does it take to train colleagues, foster parents and families in the TBRI model? Can these groups be trained together or must they be trained separately?	The caregiver training is typically done in four (4), six (6) hour modules, for a total of twenty-four (24) hours of training. The individuals/groups may be trained together, although it may be more beneficial to train people with similar roles together.
5.	Is there an expectation that we would provide training for foster parents other than those licensed by our agency?	No.
6.	What does on-going consultation and training in this model typically consist of?	Training that the practitioner provides to agency staff consists of 24 hours direct instruction, and then ongoing consultation as needed by those staff. The staff at the Karen Purvise Institute will provide on-going consultation to practitioners as needed.
7.	It appears that the application deadline is unspecified, so what would constitute a late submission (section 2.2.2)?	After the date specified in Addendum #1.
